1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven C. Bauman on August 10, 2004.

Change the title to: - EPOXY RESIN COMPOSITION WITH SOLID ORGANIC ACID--.

Cancel claims 37-39 and 42-50.

The following is an examiner's statement of reasons for allowance:

2. The insertion of the proportion ranges of epoxy component, latent hardener, thixotropy-conferring component and barbituric acid in claims 35 and 36 as supported in the specification overcomes the 35 U.S.C. 112, first paragraph, rejection.
3. The limitation of the solid organic acid to the species of barbituric acid resolves the 35 U.S.C. 102(b) and 103(a) rejections. None of the applied nor cited prior art recites the claimed barbituric acid, nor is there any impetus to employ it in the claimed epoxy resin composition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
